### Key

- Configuration
- Users, Roles & Permissions
- Remote Servers
- Storage
- Time Ranges & Limits
- Messages
- Objects
- Integrity Relationships
- Processes & Locks
- Language & Character Sets
- Miscellaneous

The lines represent key relationships and potentially useful joins. The column names for the relationships appear above or to the left of the lines, and the type of relationship (1:1, 1:N, N:N) appears below or to the right of the lines. A comma separating column names means that the relationship requires both columns.
