About This Manual

Subject This booklet introduces SQL Anywhere Studio for Windows and NetWare. It describes how to install the software. It also outlines which features of SQL Anywhere Studio are supported on Windows and NetWare.

Audience This manual is for all users of SQL Anywhere Studio for Windows and NetWare.

CHAPTER 1

Welcome to SQL Anywhere Studio for Windows and NetWare

About this chapter This chapter introduces SQL Anywhere Studio 9.0.1 for Windows and NetWare. It is a supplement to the main SQL Anywhere Studio documentation.

Contents	Topic:	page
	About this book	2
	What's in the box?	3
	Questions?	4

About this book

This book explains what you'll find in your software package and who to call if you have questions about the contents. It describes the SQL Anywhere Studio 9.0.1 CD.

Audience

This book is for anyone preparing to install and configure SQL Anywhere Studio version 9.0.1.

How to use this book

Chapter 1, Welcome to SQL Anywhere Studio for Windows and NetWare explains what you'll find in your software package and who to call if you have questions about the contents.

Chapter 2, Installing SQL Anywhere Studio for Windows and NetWare tells you how to load the CD and how to navigate to and review the documentation, readme and errata files for the product. It explains how to access product documentation on the CD and on the web.

Chapter 3, A Wealth of Information at Your Fingertips briefly describes the services provided for iAnywhere Solutions and Sybase customers. This chapter also includes pointers to more information about each service.

What's in the box?

In the SQL Anywhere Studio box, you'll find

- ◆ this readme first guide
- ◆ a quick reference guide
- ◆ a contact sheet, and a sheet with information about how to order printed copies of the documentation
- ◆ a copy of the SQL Anywhere Studio 9.0.1 CD. The CD contains the license agreement, all software and online copies of the documentation.

Questions?

If you have any questions about the contents of the SQL Anywhere Studio box, please visit the iAnywhere Solutions website at www.iAnywhere.com and click Contact Us to obtain contact information for your geographic location.

CHAPTER 2

Installing SQL Anywhere Studio for Windows and NetWare

About this chapter This chapter explains how to install the components of SQL Anywhere Studio 9.0.1.

Installing SQL Anywhere Studio for Windows

The following instructions will guide you through installing SQL Anywhere Studio for Windows.

1. Insert the SQL Anywhere Studio disk into the CD-ROM drive.
2. For Windows operating systems with autoplay on, setup starts automatically. If the setup program does not start automatically, run SETUP.EXE from this CD.
3. Follow the setup wizard instructions.

You must choose to accept the terms of the Legal Notices, Disclaimer, and Terms of Use before you can continue with the installation.

Online help is installed automatically with the software. You can choose whether or not to install the documentation in viewable and printable Portable Document Format (PDF).

You need to have the Adobe Acrobat Reader to view the documents. The reader is available free of charge at www.adobe.com, or in the Extras folder on the SQL Anywhere Studio CD.

Installing SQL Anywhere Studio for NetWare

The following instructions will guide you through installing SQL Anywhere Studio for NetWare from a Windows machine.

1. Make sure you have a Windows-based machine with a drive mapped to your NetWare machine.
2. Insert the SQL Anywhere Studio disk into the CD-ROM drive of the Windows machine.
3. For Windows operating systems with autoplay on, setup starts automatically. If the setup program does not start automatically, run SETUP.EXE from this CD.

4. Follow the setup wizard instructions.

You must choose to accept the terms of the Legal Notices, Disclaimer, and Terms of Use before you can continue with the installation.

5. Be sure to install SQL Anywhere Studio to your mapped NetWare drive, and to select Adaptive Server Anywhere for NetWare in the list of components you want to install.

You can clear all other components if you only want to install NetWare.

Online help is installed automatically on the Windows machine. You can choose whether or not to install the documentation in viewable and printable Portable Document Format (PDF).

You need to have the Adobe Acrobat Reader to view the documents. The reader is available free of charge at www.adobe.com, or in the Extras folder on the SQL Anywhere Studio CD.

Accessing Software Updates

To ensure that your installation is the most current available, check for the latest EBFs (Express Bug Fixes), interim Releases, and maintenance releases for this product on the iAnywhere website www.iAnywhere.com. Click Services & Support ► Technical Support ► SQL Anywhere ► EBFs/Patches.

You will be required to login before accessing technical support information. If you don't have an account, you can sign up for one by clicking the Sign Me Up! button on the left side of the window.

Accessing Product Documentation

Once you've successfully installed your product, you can access product documentation by choosing Start ► Programs ► SQL Anywhere 9 ► Online Books (English).

The readme.txt and errata files contain last minute changes to the documentation, and are available in the directory you installed your software to. By default, they are located at *c:\program files\Sybase\SQL Anywhere 9*.

For a list of supported platforms, see the iAnywhere Solutions website at http://www.iAnywhere.com/products/supported_platforms.html.

CHAPTER 3

A Wealth of Information at Your Fingertips

About this chapter

This chapter explains how to access iAnywhere Solutions' extensive network of resources to answer your questions. Whether you need one-on-one attention, the expertise of a peer in your field, a fix for a specific problem, or a piece of technology that works with iAnywhere Solutions products, we have a resource for you.

Sales Support

iAnywhere Solutions eShop is the fastest and easiest way to purchase additional products, documentation, support, and education options from iAnywhere Solutions. eShop features an intuitive user interface and expedited order processing to get you what you need quickly and easily. You can access eShop by clicking How to Buy ► eShop at www.ianywhere.com.

Technical Support

Bookmark the iAnywhere Solutions website www.ianywhere.com and visit often for supplementary information on iAnywhere Solutions products. Clicking Services & Support ► Technical support puts specific product information in your hands, any time of the day or night, including:

Documentation and publications

From newsletters, technical tips, technical documents and whitepapers, to complete documentation sets, publications from iAnywhere Solutions cover all your informational needs.

Software downloads

To ensure that your installation is the most current available, iAnywhere Solutions encourages you to install the GA version of this CD and then download and install the latest EBFs for this product. At the iAnywhere Solutions website, you can access all the EBFs, interim releases, and maintenance releases you need to keep your iAnywhere Solutions products up to date.

Newsgroups and user groups

User Group meetings provide an important forum for iAnywhere Solutions customers to interact, share ideas, and learn firsthand from the experiences of others. User groups range in size and scope from a handful of members focused on a specific product to an international organization centered around a product type. While user groups are formed and run completely by the users, iAnywhere Solutions provides funding and marketing for initial group establishment.

Sybase developer network

The Sybase Developer Network (SDN) is the place for developer information from iAnywhere Solutions. The SDN puts you in touch with the newest information across iAnywhere Solutions products—information that includes betas, strategic technical papers, tips and techniques, and downloadable code samples and utilities. Best of all, the information is absolutely free.

Professional Services

iAnywhere Solutions Professional Services provides the technical assistance you need to deliver the business results everyone demands. We put the product experts by your side, as needed, to answer your questions and see you through. We help you plan for the long-term and also manage immediate business emergencies. No one wants to see you succeed with iAnywhere Solutions products more than iAnywhere Solutions Professional Services.

Partner products

For information about third-party products and services that work with the iAnywhere Solutions product family, or for information about becoming an iAnywhere Solutions partner, click Partners at www.ianywhere.com or call the iAnywhere Solutions office nearest you.
